STUDENT EDITOR

The biggest moment of joy for children in 2021, perhaps, came in September when schools reopened, though partially, under strict adherence to COVID-19 protocols. It was as if the doors of happiness had finally opened. However, conducting examinations for students in the prevailing Covid scenario was still a huge challenge. This was especially true of the Class 10 and Class 12 board examinations, which play a significant role in every student's career graph and roadmap for life. The students appearing for the ICSE and ISC examinations 2021 witnessed several changes in the examination patterns, such as a shift from subjective questions to multiple-choice questions, a change in syllabus, a change in pattern, and a way of attempting the exams. Nevertheless, pushing through all the odds, we MCKVians did our ICSE and ISC examinations and passed with flying colours. This would have been impossible without the constant support of our parents and more importantly, our teachers. Amidst the raging pandemic, our teachers not only came up with innovative teaching strategies, but tweaked and improvised them from time to time to fill any gaps that might appear in our learning outcomes. Today it makes me incredibly proud to say that I am part of this great institution which values right education above everything else.

Excellence is the result of true intention, sincere effort, intelligent direction and skilful execution.

It is both a joyous and validating moment for the MCKVians when the Class 10 (ICSE) and Class 12 (ISC) results for the academic session 2021-2022 witnessed towering success with students clinching spectacular winning scores.

Undoubtedly, the school has created a niche for itself with its constant brilliant performance in the last few years. The remarkable feats in the board results by the 224 and 227 students in the ICSE and ISC Examinations respectively have made us proud especially since our children achieved 100% success despite the most trying circumstances.

In Class 10, above 99% of our students secured First Division with 20 students scoring 100% marks in various subjects. Shubho Prasad Ghosh with 98.8% aced the ICSE Examination.

In Class 12, the entire batch of students passed in the First Division. Among our senior scholars, Alok Kumar Lohariwala, Ishu Gupta and Rohan Jain topped the Science stream with 97.5%, while Atiksh Agarwal of the Commerce stream excelled in the ISC Examination with 98.5% marks. Moreover, Alok Kumar Lohariwala and Ishu Gupta have performed remarkably well in this year's WBJEE.

The ICSE school average is 83%, while the ISC Science and ISC Commerce school averages are 88% and 83% respectively. The dedication and perseverance of our students and teachers deserve a special mention as they have made every effort to outshine many schools in the country. We also express our gratitude to the parents for their unconditional and constant support.

## SOCIAL-EMOTIONAL LEARNING: A NEW INITIATIVE FOR CLASS 6

Modern education not only focuses on the curriculum but also on the various interpersonal skills that a child must develop to succeed in life and become a better human being. Social-emotional development is one such skill which aids a child to manage his emotions and develop the ability to establish positive and healthy relationships with others. Undoubtedly, a school plays a dominant role in helping a child develop this skill. With this objective, MCKV has started a pilot project to conduct SEL (socio-emotional learning) sessions for the students of Class 6. The blueprint of this programme was planned almost a year ago. Selected teachers of our school received virtual training from Professor G. N. Radhakrishnan, educational consultant, and

mentor and training facilitator at Great Lakes Institute of Management, Chennai, and Dr. Sheela Raghavan, a well-known educationist and consultant. Both the consultants visited MCKV last month and organised a three-day workshop from 21<sup>st</sup> to 23<sup>rd</sup> July, 2022. This was with the intent of equipping the trainees with the various methodologies integrating SEL classes into their daily routine. A session with the parents was also conducted to make them aware and seek their support for the successful implementation of this programme. MCKV believes that these SEL classes will eventually help the children to grow as confident and focused individuals with social and emotional competencies.

## BLOOD DONATION CAMP

A single gesture of kindness can create millions of smiles; a single pint of blood can save many lives. To curb the shortage of blood supply for the treatment of cancer patients, M. C. Kejriwal Vidyapeeth, in association with Interact Club of MCKV, Rotaract Club of MCKVIE, Rotary Club of Belur, MCKV Health and Medicare Pvt. Ltd. and Saroj Gupta Cancer Centre and Research Institute organized a Blood Donation camp at the school campus on 23<sup>rd</sup> July, 2022. More than sixty members of the MCKV family volunteered to donate blood. With an approximate collection of twenty-two litres of blood, two hundred and fifty lives will be impacted by this drive. Unfortunately, in our society, a large number of people are still unaware of the benefits of voluntary blood donation, both for the donor and the recipient. The event served to inculcate a sense of responsibility in the community, and sensitize individuals to the need of helping cancer victims.
