Change is the only constant. In a world that seems to move faster than it can handle, with months feeling like days and days feeling like seconds, another year begins at MCKV. As April rolls into May, spring rolls into summer, and MCKVians roll into twelve months of scholastic adventure that promises countless memories and innumerable lessons learnt.

April at MCKV stands for growth and assimilation, as the school settles into a rhythm for the new year, and the celebration of *Poila Boisakh* signified exactly that, as our students celebrated this deeply important occasion with skill and pride.

Furthermore, the school also invested its pride in a new batch of prefects, as the Prefect's Investiture Ceremony bestowed upon selected student leaders from both the junior and senior sections, the responsibility of being representatives of their fellow schoolmates.

As the year unfolds with new beginnings and fresh responsibilities, let us remember the words of Robert Frost,

"The best way out is always through."

With resilience, hope, and togetherness, may every challenge this year become a stepping stone towards growth and discovery.
